WORK EXPERIENCE

State Street Bank Corp.

Sr. SAS Help Desk Representative

05/2017 - PRESENT

- Platform Support: Managed user access and high availability for over 50 enterprise and web-based applications.
- Cross-Functional Collaboration: Partnered with senior management in an Agile-aligned environment to resolve complex technical incidents.
- Technical Documentation: Authored comprehensive knowledge base articles, documenting technical processes and system logic for team use.
- Incident Management: Resolved 20-50 high-priority support requests daily while maintaining top-tier user satisfaction.

SmithAW Digital Solutions

Front-End & UI/UX Developer /
Freelance Consultant

2025 - PRESENT

- Designed and developed client-facing websites and digital experiences combining front-end development, UI/UX design, responsive design, visual branding, and accessibility.
- Built modern web applications using React 18, TypeScript, Tailwind CSS, HTML5, CSS3, and JavaScript.
- Created custom WordPress websites using the Gutenberg block editor (Harrisons & Sons, Vacation Dominican Republic).
- Applied WCAG 2.2 AA accessibility principles and responsive design practices across digital builds.

Insight Global / Assurant Solutions

Contractor / Technical Support Analyst

06/2015 - 03/2016

- Resolved software and hardware issues via remote access tools (Bomgar, BigFix), ensuring minimal downtime for critical systems.
- Utilized Active Directory and multiple databases, gaining experience with the backend structures that power frontend interfaces.

H&R Block World Headquarters

Technical Support / Help Desk Specialist

11/2012 - 04/2015

- Assisted with advanced server setup and migration for 12,000 retail offices, gaining deep insight into network environments and data deployment.
- Provided end-user system training, translating complex technical concepts into actionable information for non-technical users.
- Collaborated with upper-level teams to resolve recurring system bottlenecks and optimize platform performance.
